3M Science. Applied to Life.™

Welcome to a cooler, more comfortable future.

3M™ Cool Flow™ Fan, 1040 Series.

Attaching simply and securely to the 3M™ Maintenance-Free Reusable Respirator, 4000+ Series, 3M™ Cool Flow™ Fan 1040 Series helps to draw heat and moisture away from your face, helping you to stay cool and focus on the task at hand.

Cool Flow™ Fan 1040 Series

3M™ Cool Flow™ Fan, 1040 Series

A simple and secure way to help reduce heat and moisture build-up in your mask.

Workers will often tell you that wearing a face mask for any length of time, or undertaking high intensity tasks, will result in heat and moisture build-up inside the mask.

3M™ Cool-Flow™ Fan 1040 Series is a simple, secure and innovative way to minimise the discomfort caused by heat and moisture build-up. It draws out exhaled air from the mask, creating a cooling effect on your face. Protection is not compromised and you will stay drier and cooler all shift long.*

3M™ Maintenance-Free Reusable Half Mask 4000+ Series

- Ready-to-use, maintenance-free construction with integrated filters
- Proven to suit a wide range of face sizes and shapes
- Designed to suit eyewear and hearing protection from 3M
- Resealable bag provides convenient and clean storage between uses

3M™ Cool Flow™ Fan attaching to 3M Reusable Respirator, 4000+ Series*

*Sold separately to mask
