MAJFIRE | Fireman Balaclava NFPA 1971-2018 Nomex

FULL DRAPE

The MAJFIRE Balaclava model are larger hoods that drape from shoulder to shoulder to help ensure a secure fit within the turnout coat.

MAJFIRE Balaclava offers a flatlock top and special face opening in a larger hood. This hood provides full shoulder-to-shoulder coverage on both front and back, and provides complete protection while ensuring that the hood stays tucked into the bunker suit coat.

OVERSIZED HEAD

Its oversized head section with true flat topseam allows the helmet to rest firmly on the head and prevents the topseam from "digging in.

NATURAL FIT FACE

Its "Natural Fit" face opening stretches to over 17" (430 mm) and provides superior fit and comfort.

Outer: P84/PFR Blend Natural
Non-Ventilated
Oversized Head
Comfort Top
TPP Before Washing: 22.2
TPP After Washing: 24.2
